Barge and *bark* are probably identical in origin, and possibly from Celtic; Thurneysen shows that OIr. *barc* (a fem. *a*-stem) may, if native, represent an original **barga*, with dialectal by-form **barca*, which would satisfactorily account at once for OF. *barge*, and the common Romanic *barca*. Diez takes *barca* as an early syncopated variant of the conjectural **bārica*, mentioned under BARGE, but as *barca* occurs *c* 400 and **bārica* not at all, this is improbable. As to the original meaning, Isidore, *c* 640, says '*Barca* est, quae cuncta navis commercia ad litus portat. Hanc navis in pelago propter nimias undas suo suscipit gremio.' So Florio (1598) explains It. *barca* as 'a barke, boate, wherrie, or lighter'; ed. 1611 has 'any kinde of Barke, Barge, or Boate'; Minsheu (1623) explains Sp. *barca* as 'a great boat, a barke, a skiffe, a hoarse boat'; and Cotgr. (1611) has Fr. *barque* 'a barque, little ship, great boat.' Cf. BARGE *sb.*[1] 2–4. The *barca* was thus apparently, originally, a large ship's boat, used as a lighter; on the Mediterranean, the name continued to be applied to an open boat, even while extended to a small vessel with sails; the latter was the sense with which the word was taken from French into English, and which it still retains both in general and specific use; but in the end of 16th c., the more primitive sense of 'large rowing boat, barge' was reintroduced from the languages of the Mediterranean.]

1. A small ship; in earlier times, a general term for all sailing vessels of small size, *e.g.* fishing-smacks, xebecs, pinnaces; in modern use, applied poetically or rhetorically to any sailing vessel, 'our gallant bark'; = BARGE 1.

[OE. *bærlíc*, of doubtful composition: *bær-* seems to point to OTeut. **baroz-*, **bariz-*, 'barley,' the latter of which gave OE. *bere* (see BEAR *sb.*[2]) with *e* as proper umlaut of *a*; the suffix is evidently *-líc* (see -LY[1]), as if *bærlíc* meant at first, not *hordeum*, but *hordeāceus*.

Bærlíc first appears *attrib.* or as *adj.* in the name *Bærlícecroft*; cf. also BARLEY-CORN. The notion that *líc* is the word *léac* 'leek,' as in OE. *gárléac*, ME. *garleek*, *garleke*, now *garlic*, is phonetically out of the question. In *bær-*, can the vowel *æ* (for earlier *a*), instead of *e*, be due to early syncopation, *bærr-:—barr-*, *barz-*, from *baroz-*, *bariz-*? Cf. ON. *barr*, North Fris. *bar*, *bær*. (But ON. *barlak*, in an Orcadian document, is prob. adopted from OE.) The *Rushw. Gloss.* has also *bæreflór* for *bereflór*, and late charters *bærtún* for *beretún*.

barley-, barlibreake, 7–8 barlibreak, barley-brake, -break, 9 *Sc.* barley-brack. [Of uncertain etymology; the first part has been explained from the prec. word, also from the grain *barley*, because played in a corn-field, or in a stack-yard (Jam.); the second from *break* as explained below.] An old country game, varying in different parts, but somewhat resembling *Prisoner's Bars*, originally played by six persons (three of each sex) in couples; one couple, being left in a middle den termed 'hell,' had to catch the others, who were allowed to separate or 'break' when hard pressed, and thus to change partners, but had when caught to take their turn as catchers. (See poetical description by Sidney in *Arcadia* 1. *Lamon's song*, and Suckling in *Poems* (1646) 24.) In Scotland, according to Jamieson, one person had to catch the rest of the company, each of these as taken assisting their captor.

P. Baker, as a result of a broadly humorous association of ideas. It served the purpose of a code word..and seemed appropriate because 'a cross section of 10^{-24} sq. cm. for nuclear processes was really as big as a barn'. **1957** *Sci. Barnabite ('bɑ:nəbaɪt). [f. *Barnab-as* name of the apostle: see -ITE.] A member of the religious order 'thus called from the church of St. Barnabas at Milan' (Chambers *Cycl.* 1751).

Barnaby ('bɑ:nəbɪ). [a. F. *Barnabé*, ad. L. *Barnabas*.] By-form of the name Barnabas; whence **Barnaby-day**, **Barnaby bright**, or **long Barnaby**, St. Barnabas' Day, the 11th of June, in Old Style reckoned the 'longest day'; **Barnaby-thistle**, the *Centaurea solstitialis*, so named from its flowering about the 11th of June.

OF. *bernicles* in Joinville *c* 1275, in sense of the instrument of torture (sense 2) as used by the Saracens, for which Marsh has suggested an oriental origin, comparing Pers. *baran-dan* to compress, squeeze, *baranjah kardan* to inflict torture. But, so far as evidence goes, 1 was the earliest sense, and of western origin. The sense of 'spectacles' seems to arise naturally enough from the others, but has been treated by some as distinct, and referred to OF. *béricle* (since 15th c. *bésicle*) 'eye glass,' originally 'beryl':—late L. **bericulus*, dim. of *berillus*, *beryllus*: it is not easy to trace any phonetic connexion between this and *barnacles*, even though the mod.F. dialect of Berry has *berniques* 'spectacles.']

barnacle ('bɑ:nək(ə)l), *sb.*[2] Forms: α. 3 bernekke, 4–5 bernake, 5 bernak, -ack, (? barnagge). β. 5 bernakill, barnakylle, 5– bernacle, 6– barnacle, (7 barnicle, 9 bernicle). [ME. *bernekke*, *bernake*, identical with OF. *bernaque*, med.L. *bernaca*, *berneka*. (Other F. forms *bernache*, *barnache*; Pg. *bernaca*, *-acha*, *-icha*, Sp. *bernache*; med.L. also *barnaces*, *bernesta*, *barneta*, perhaps bad spellings). With the β forms cf. med. or mod.L. *bernicla*, *-ecela*, *-acula*, and mod.F. *bernicle*, *barnacle*. Ulterior history unknown.

The earliest attainable forms (omitting *barbates* in Albertus Magnus and *barliates* in Vincentius Bellovacensis, which seem too far off) are the Eng. *bernekke*, Anglo-Lat. *bernaca* (Giraldus Cambr. *c* 1175), *barneta*, ? *barneca* (Gervase of Tilbury *c* 1211), *berneka* (Vincent. Bellovac. 1200–1250). If English, this could only be *bare-neck* or *bear-neck*, of which the application is not evident. The history of this word is involved in an extraordinary growth of popular mythology, traced back as far as the 11th or 12th c. by Prof. Max Müller, *Lect. Sc. Lang.* (ed. 7) II. 583–604. It is there suggested that *bernacula* might be a variant of **pernacula*, a possible dim. of *perna* 'a kind of shell-fish,' afterwards confused with **bernicula*, a supposed aphetic form of **hibernicula*, which might be applied to the barnacle-goose from its being found in *Hibernia*. Others seek the source of the primitive *bernaca* in Celtic, comparing Gaelic *bairneach*, Welsh *brenig*, limpets. But as all the evidence shows that the name was originally applied to the *bird* which had the marvellous origin, not to the *shell* which, according to some, produced it, conjectures assuming the contrary seem to be beside the mark. The form *bernacle*, it will be seen, is not found before 15th c., and *bernacula* seems to be only its modern Lat. adaptation. If med.L. *bernecla*, *bernicla*, are earlier, they are suspiciously like erroneous forms of *bernecha*, *bernicha*. No connexion with BARNACLE *sb.*[1] can be traced: *bernac* was masc., *bernaque*, *-ache* fem., in Fr.]

1. A species of wild goose (*Anas leucopsis*) nearly allied to the Brent Goose, found in the arctic seas (where alone it breeds), and visiting the British coasts in winter.

This bird, of which the breeding-place was long unknown, was formerly believed to be produced out of the fruit of a tree growing by the sea-shore, or itself to grow upon the tree attached by its bill (whence also called *Tree Goose*), or to be produced out of a shell which grew upon this tree, or was engendered as a kind of 'mushroom' or spume from the corruption or rotting of timber in the water.

2. English name of the pedunculate genus of Cirripedes, which attach themselves to objects floating in the water, especially to the bottoms of ships, by a long fleshy foot-stalk. Sometimes used to include sessile Cirripedes: see ACORN-SHELL.

(This was the 'shell-fish' out of which the Barnacle Goose was supposed to be produced, the long feathery cirri protruded from the valves suggesting the notion of plumage. Giraldus Cambrensis had himself seen more than a thousand of them 'conchylibus testis inclusæ,' hanging from one piece of timber on the shore.)

baron ('bærən). Forms: 2–4 **barun**, 4 **barune**, **baroune**, 4–6 **baroun**, **-own**, 5 **baroone**, **barrown**, 6 **barroun**, **barne**, 7 **barron**, 3– **baron**. [Early ME. *barun*, *-oun*, a. OF. *barun*, *-on*, acc. of *ber* (= Pr. *bar*, acc. *barón*, *baró*, Sp. *varon*, Pg. *varão*, It. *barone*):—late L. *baro*, *-ōnem*, of which the ordinary sense was 'man' (interchanging in Salic Law with *homo*), esp. in relation to some one else, as when we say 'the king's man,' passing on one side into 'servant, vassal,' on another into 'man as opposed to *slave*, freeman,' also as opposed to *wife* 'husband,' as opposed to *female* 'male.' Isidore explains *Mercenarii*, as 'qui serviunt accepta mercede, iidem et *barones* Graeco nomine, quod sint fortes in laboribus,' (connecting it with *βαρύς*); Cornutus (on Persius *Sat.* v.) explains *barones* (to which he attributes a Gaulish origin) as 'servos militum, qui utique stultissimi sunt, servos videlicet stultorum.' This seems to point to the cl. L. *bāro*, *-ōnem* 'simpleton, blockhead, dunce'; but there is nothing else to show whether this is the same word as *baro* 'man.' The laws of the Alemanns have in the same sense *barus*: if this were the original form, *baro* would be an augmentative.

The ulterior origin is unknown. It has been conjecturally referred to a Celtic **bar* 'hero' (which seems a figment); OHG. *bero*:—OTeut. **beron-* 'bearer, carrier' ; a hypothetical Teut. **bar-*, with same sense; OE. *beorn*, 'warrior, brave, hero'; and Teut. *barn* 'bairn, child'; of which some are purely hypothetical, and others fail to explain the form or sense, or both.]

1. *Hist.* Originally, one who held, by military or other honourable service, from the king or other superior; afterwards restricted to the former or *king's barons*, and at length mostly applied to the greater of these (the *Great Barons*) who personally attended the Great Council, or, from the time of Henry III, were summoned by writ to Parliament; *hence*, a lord of Parliament, a noble, a peer.

Historically, all who held directly from the king were *barons by tenure*, such of these as were summoned to Parliament were *barons by writ*.

From the earliest period we find *baron* distinguished from *earl*, as the designation of an *untitled* military tenant; the name may be considered to have itself become a title, as distinct from a description of feudal relationship or of parliamentary privilege, with the creation of barons by patent, which began in the reign of Richard II.

Compared *barrener, -est.* [a. OF. **barain, brahain, brehaing*, in fem. *baraine, baraigne, barhaine, barahaine, braaigne, brahaigne, brehaigne*, of uncertain origin and original form: assuming this to be *barain*, Diez suggests derivation from *bar* 'man, male' (L. type **bārāneus*), as if 'male-like, not producing offspring, sterile,' which suits the sense well; but there seems to be good reason for taking *brahain* as the original type, whence *bréhain*, and *barhain, barain*; the latter was the Anglo-Norman form. (The Breton *bréchagn* is certainly from Fr.: Thurneysen.)]

Basket has been conjecturally identified with L. *bascauda,* used by Juvenal and Martial; by the latter (xiv. 99) given as British, 'Barbara de pictis veni bascauda Britannis, Sed me jam mavult dicere Roma suam.' But the senses anciently assigned to *bascauda* of *washing tub* or *tray* 'vasa ubi calices lavabantur, cacabus,' or *brazen vessel* 'conchæ æreæ, genera vasorum' Papias (see Du Cange), do not favour this identification. The word is unknown in Old Irish or Welsh (*basgawd* is a figment invented to suggest *bascauda*), and the mod. Celtic words, Welsh *basged,* Corn. *basced,* Ir. *basceid,* Gael. *bascaid,* cannot phonetically be descended from an original *bascauda,* but seem to be simply adopted from Eng. (Prof. Rhys). At present, therefore, there is no evidence to connect *basket* with *bascauda,* or to refer it to a Celtic origin.]

Swedish dial. have also *natt-batta*. *natt-blacka*: with the latter cf. Icel. *leðr-blaka* 'bat,' lit. L. *blatta* 'an insect that shuns the light' (*blattæ lucifugæ*, Vergil) 'cockroach, moth,' is distinct in origin, but may have influenced the English change to *bat*; evidence is wanting. *Back-* in comb., *backie-bird*, *bawkie-bird* still survive in north Eng. and Sc.]

1. a. An animal, a member of the Mammalian order *Cheiroptera*, and especially of the family *Vespertilionidæ*; consisting of mouse-like quadrupeds (whence the names *Rere-mouse*, *Flitter-mouse*), having the fingers extended to support a thin membrane which stretches from the side of the neck by the toes of both pairs of feet to the tail, and forms a kind of wing, with which they fly with a peculiar quivering motion; hence they were formerly classed as birds. They are all nocturnal, retiring by day to dark recesses, to which habits there are many references in literature.

Of about 17 species found in Britain the best-known are the Common Bat or Pipistrelle (*Vespertilio Pipistrellus*) and the Long-eared Bat (*Plecotus auritus*); of the much larger foreign species, the most noted are the Vampires.

bat (bæt), *sb.*^{2} Forms: 3 (*dat. sing.*) botte, (*pl.*) botten, 3–5 bottes, 3–6 battes; 5–6 batte, 6–8 batt, 4– bat. [As the nom. sing. does not occur in 13th c., it is uncertain whether it was *bat* or *batte*, and thus whether it was an adoption of OF. *batte* (partly identical in sense, referred by Littré to *battre* to beat), or represented an OE. **bat* (fem.) 'fustis,' alleged by Somner, from an unknown source. The forms in Layamon rather favour the latter; but in any case some of the senses are from F. *batte*. The supposed OE. **bat* is by some referred to a Celtic origin; cf. Ir. and Gael. *bat*, *bata* staff, cudgel. The development and relations of the senses are obscure: some of them appear to be from the verb, and some may be immediately due to onomatopœia, from the sound of a solid, slightly dull, blow: cf. *pat*. Thus there may be two or three originally distinct words, though no longer satisfactorily separable.]

batteilant, -ellant, variant of BATTAILANT *a.*

battel ('bæt(ə)l), *sb.* As a separate word only in pl. battels; also 4 ? batails, 8 battles, 9 battells. [Of uncertain origin: in 16th c. L. *batilli*, *battilli*; in the Laudian Statutes *batellæ*. The etymology of this, with its associated vb., and deriv. *batteler*, has been the subject of abundant conjecture. Much depends on the original sense at Oxford: if this was 'food, provisions,' it is natural to connect it with BATTLE *v.*[3] to feed, receive nourishment; cf. esp. BATTLING *vbl. sb.*[3], explained by Sherwood (1632) as '*vivres*, *manger*, *morche*.' But conclusive evidence that *battels* had this sense is wanting, while already before 1600 it had that of 'debita,' *sums due* to the college for provisions, etc. The verb however appears to have been sometimes used for 'to take or receive provisions,' i.e. from the college buttery, which brings us close to the senses of BATTLE *v.*[3] 'to feed, take nourishment.' Cf. also the Eton use, and Winchester *battlings*. On the other hand, sense 3 of the vb. (if the same word) suggests the idea of contributing to a common fund or stock: compare the terms 'commons' and 'commoner.' See BATTELER.

Taking 'accounts' or 'score' as the original sense, some have conjectured *battel* to be a dimin. of BAT. *sb.*[2] or of F. *batte*, with sense of 'little staff or stick,' whence perhaps 'tally-stick.' But nothing appears in med.L., OF., or Eng., to support this conjecture. Reference to Du. *betaalen*, G. *bezahlen* 'to pay,' or to the possibility of *batilli* arising out of a misreading of *bacilli* 'little sticks,' do not fall within the limits of scientific etymology.]

†1. See quot. (Perhaps a distinct word.) *Obs.*

*c*1400 *Apol. Loll.* 76 To cry þis day..a3ennis þe multitude of lawis of þe kirk..a3en batails, a3en reseruacouns, a3en furst frutis, & oþer spolingis of goodis of þe kirk.

2. In Univ. of Oxford: a. College accounts for board and provisions supplied from the kitchen and buttery. b. In looser use: The whole college accounts for board and lodgings, rates, tuition, and contribution to various funds, as 'My last term's battels came to £40.' Also *attrib.*, as *battel-bills*.

The word has apparently undergone progressive extensions of application, owing partly to changes in the internal economy of the colleges. Some Oxford men of a previous generation state that it was understood by them to apply to the buttery accounts alone, or even to the provisions ordered from the buttery, as distinct from the 'commons' supplied from the kitchen: but this latter use is disavowed by others. See the quotations, and cf. those under BATTEL *v.* and BATTELER, which bear that *battels* applied in 17–18th c. to provisions supplied to members of the college individually at their own order and cost, i.e. to *battelers*, who had no commons, but were charged their 'battels' only, and to *commoners* as extras ' above the ordinary stint of their appointed commons': but whether the *battels* were originally the provisions themselves, or the sums due on account of them, must at present be left undecided.

battle, battel ('bæt(ə)l), *a. Obs.* exc. *dial.* Forms: 6–7 battill, battell, batle, battle, 6 batel(l, 7 battel, 8–9 *Sc.* baittle, bettle. [For the etymology and mutual relations of this and the cognate BATTLE *v.*[3], data are wanting; according to present evidence, the adj. appears earliest, being found in Scotch in 1513. Its form and sense agree with a derivation from **bat*, representing ON. *bati* 'improvement, getting better,' Du. *baat* 'improvement, advantage, profiting, profit,' referred to under BATTEN *v.*[1]; with suffix as in *brittle, bruckle, fickle, newfangle*, and OE. *etol, drincol, wittol.* This would give as the primary sense 'given, tending, or fitted, to improve, better, fatten, etc.' All the related words have a smack of Northern origin: '*battle* or *baittle grass*' is still common in south of Scotland.

The non-occurrence of *bot*, while its presumed derivatives, *battle, battoble, batful, botsome*, are so frequent in 16–17th c., is a difficulty; as is also the fact that *batt-le, batt-oble* point to a verbal rather than a substantive base, and yet can hardly have been formed on *bott-en.*]

bauble ('bɔ:b(ə)l). For forms see the senses. [Probably two original words are here blended: (1) OF. *babel*, also *baubel* 'child's toy, trinket, plaything'; whence also the dim. *baubelet* (Littré, s.v. *babiole*), *beubelet* (Godef.), adopted in Eng. at a very early date as BEAUBELET, q.v. The etymology of the F. is uncertain: it is very doubtful whether it can be connected with mod.F. *babiole* in same sense, which Littré thinks derived from a root *bab-*, appearing in L. *babulus* babbler, fool, It. *babbeo*, *babbano* silly, Pr. *babau* fool, and perh. in Eng. *baby*. (2) ME. *babyll*, *babulle*, *bable*, translated *librilla*, is evidently connected with *'bablyn* to waver or oscillate, *librillare*,' *'babelynge* wavering, *oscillatio*, *librillacio*'; see BABBLE *v.* 5, BABBLING *vbl. sb.* 3, which has been suggested to be a frequentative derivative of *bab* or BOB *v.* It must, in any case, be distinct from the OF. word. But the 'fool's bauble' (see sense 4) may, so far as evidence goes, be from either, according as it was named from its shape or its purpose, or may blend the two notions; it has certainly been associated phonetically and in idea with the 'toy' senses, and has probably coloured the later use of these, in which 'childish' and 'foolish' are united.

If sense 1 has no connexion with the 'fool's bauble,' it would be better treated as a distinct word under main-form BABLE.]

Often equivalent to 1 bit per second.

[**1929** *Documents de la deuxième réunion du comité consultatif international des communications télégraphiques à Berlin 1929* 115 L'avis que la vitesse de transmission soit exprimée par l'inverse de la valeur de l'intervalle élémentaire mesurée en secondes; que la vitesse de transmission d'un intervalle par seconde soit appelée baud, pour honorer la mémoire du grand télégraphiste Emile Baudot.] **1932** *P.O. Electr. Engin. Jrnl.* XXV. 262/2 It has been proposed to use the duration of the 'unit' element to define the speed of transmission of successive signals. OF. *bausant*, *-ssant*, *-sent*, *-cent*, *balcent*, also *bauchant*, *baulchant*, and (without final *t*) *bauzan*, *-sen*, *-sain*, *-çain*, black and white spotted, piebald, a word of doubtful form and etymology, but of which the forms without *-t* correspond to Pr. *bausan*, It. *balzano*, white spotted (Baretti), white-footed (Minsheu), whence also mod.F. *balzan* 'black or bay (horse) with white feet' (Littré). The word appears also in med.L. as *bausendus*, *bausennus*, *bauchantus*, from Fr. In view of the It. and Pr., the OF. forms in *-nt* are not easy to account for, but they seem to be the source of the ME. *bausand*, though later spelling assimilates the word to ppl. adjs. in *-ed*, as if formed on *bawson*.

(For the ulterior etymology there is nothing satisfactory. Conjectures may be seen in Boehmer *De colorum nominibus equinorum* in *Roman. Studien* vol. I; in Diez, who referred *balzano* to *balza* 'border, fringe'; and in Devic (Littré, *Suppl.*) who has pointed out the striking identity of meaning between *bausant* and Arab. *ablaq*, fem. *balqāʾ*; but notwithstanding this, the forms of the Arabic and Romanic words cannot (at present at least) be phonetically reconciled.)]

bawbee (bɔː'biː). *Sc.* Forms: 6 bawbie, babie, 7 babee, baubie, baubye, baubee, 7– bawbee. [Of doubtful origin: it has been conjecturally identified with *baby* (with which it was sometimes identical in form in 16th c.), derived from *basse-pièce* (phonetically impossible), and *bas billon* 'base bullion' or mixed metal, and from the name of a contemporary mint-master, the laird of Sillebawby.

(The last conjecture is on the whole probable, and is strengthened by the similar origin of the name of the ATCHISON, and perhaps of the BODLE. The laird of *Sillebawby* (notwithstanding his designation, and its suggestion of *Siller bawbee*) was a real person: on 7 Sept. 1541, Kirkcaldy of Grange, the Treasurer, accounted for amounts 'in argento receptis a Jacobo Atzinsone, et Alexandro Orok de Sillebawby respective' (Cochran-Patrick I. 60). There is only wanting some direct proof of the abbreviation of *Sillebawby* to *bawby*. The idle surmise that the first issue bore the head of, or was issued by, an infant king, is disposed of by the preliminary fact that 'bawbeis' were first issued in 1541–2 *near the close* of the reign of James V, and *bore no head*; moreover there exists no Scottish coin bearing a baby head. Beside the fatal phonetic objection to *basse pièce*, *bas billon*, there is not the slightest indication that the *bawbeis* were ever so called, and coins of billon, or base metal, had been too common for a century and a half in Scotland to make them a novelty in 1541.)]

A Scotch coin of base silver equivalent originally to three, and afterwards to six, pennies of Scotch money, about a halfpenny of

bawd (bɔːd), *sb.*[1] Forms: 4–5 bauude, 4–7 baude, 4–6 bawde, 6 bawed, 6–7 baud, 6– bawd. [Of uncertain origin: the original sense shows no approach to that of OF. *baud*, *baude*, 'bold, lively, gay, merry' (see BAUDE), to which it has often been referred: even allowing that 'gay' might have passed into the sense of 'wanton, licentious, personally unchaste,' no trace of such sense appears either in ME. or Fr.; nor is the Fr. word found as a sb. The earliest instance yet found occurs in *Piers Plowman*, 1362, where one MS. reads BAWDSTROT. *Bawd* may not improbably be an abbreviation of that word, which is found in Fr. a century earlier.]

In OE. *begbeam* occurs in the OE. Gospels, and in a glossary of the 11th c. (Wülcker /450) as a rendering of *mōrārius*; the glossarist adds that *mōra* is a name for 'berries' generally, whence *beg* appears to be = berry. In the 11th c. it might perhaps already be adopted from Fr.; but the Corpus Glossary of the 8th c. (Wülcker /8) has also 'baccinia (= vaccinia) *beger*' which suggests that this (elsewhere *begir*) might be an archaic plural of an original *-is, -os* stem, and that *beg* was a native word. Its ME. repr. would be *bey, bay*; but the extant *bay* appears to be from French.]

bay (beɪ), *sb.*[4] Also 4 baie, 5 baye. [Two different words seem to be here inextricably confused. Originally, the phrase *to hold at bay* seems ad. OF. *tenir a bay* (Godefroy) = It. *tenere a bada*, where *bay*, *bada*, means the state of suspense, expectation, or unfulfilled desire, indicated by the open mouth (late L. *badare* to open the mouth); but *to stand at bay*, *be brought to bay*, correspond to mod.F. *être aux abois*, meaning to be at close quarters with the barking dogs, and *bay* is here aphetically formed from ABAY, a. OF. *abai* barking. See BAY *v.*[1] In the phrase *at a bay*, some early quotations may read *at abay*.]

bay (beɪ), *sb.*[5] Also 7 baye. [A word of doubtful standing and origin: it may be questioned whether senses 1 and 2 are really connected, and whether the word in the *Promp. For the etymology, the ON. *bág-r* 'opposition,' has been compared, with its derived vb. *bægja* 'to push back, hinder'; the latter might be the direct source of the related BAY *v.*[4], if we could assume the sb. to have been taken from the vb. bay-salt ('beɪˌsɒlt). Forms: 5–6 baye-, 7 bai-, base-, 6– bay-salt. [prob. f. BAY *sb.*²

Many explanations have been offered. A derivation from *Bayonne* dates from 1633; but if salt was really imported into England from that place, it would seem more probable that *bay-salt* meant 'salt from the Bay (of Biscay) ; cf. '*Cape* wines,' etc. The conjecture that it means salt procured from bays (of the sea) indefinitely, seems less probable, for it would have been more obvious, in this case, to say '*sea*-salt.' There seems to be no good authority for the statement that the Cheshire brine-pools are called *bays*, nor would this explain why one kind of salt should bear the name of *bay-salt* more than another.]
